ABSTRACTED-PUB-NO: JP 08310939 A
BASIC-ABSTRACT:

External fair-skin prepn. contains extract of Equisetaceae family, Equisetum
genus partic. Equisetum arvense L., Equisetum hyemale L. or Equisetum debile
Roxb., at concns. of 0.05-20.0 wt.%, excluding Equisetum giganteum.

Raw materials are extracted with conventional solvent (e.g. MeOH, EtOH, aq. alcohols, acetone and EtOAc) and resultant extract is added to conventional external prepn. bases including cosmetics together with known additives and carriers.

USE/ADVANTAGE - Used to prevent and treat pigmentation, spots, freckles and chloasma at concns. of 0.005-20.0 (pref. 0.01-10.0) wt.% in external compsns. Compsn. is non-toxic.

In an example, extracts of Equisetum arvense L., Equisetum myemale L. and Equisetum debile Roxb. inhibited melanin formation at concn. of 0.01 wt.% in cultured B16 melanoma cells. At same concn., these extracts inhibited tyrosinase activity at rate of 98, 97 and 98%, respectively.
